

## U. S. AVIATOR MEETS DEATH

**Lieutenant J. D. Park Strikes a Tree in Making Flight From San Diego to Los Angeles—Was Attached to Army Experiment Station**

Los Angeles, May 9.—Lieutenant J. D. Park, a military aviator, who started a flight from San Diego this morning on a flight to Los Angeles, was killed at Olive, nine miles north of Santa Ana, about 8 o'clock.

Lieut. J. Park met his death in a fall of less than fifteen feet. He had alighted a quarter of a mile from the Olive school house, on account of heavy mist that confused him as to his bearings, and after giving a message to a little girl to telephone to Glenn Martin in Los Angeles, he rose again. His machine swooped over a low hill, and crashed into a tree. He was dead when the little girl and her father reached his side.

Lieutenant Park was attached to the Fourth cavalry, but for several months had been detailed by the war department with other army officers for active air service at the aero experiment camp near San Diego.

Park has made many flights here, and attained the army altitude record recently. It was for the purpose of demonstrating the efficiency of the aeroplane in long distance army scouting operations that Park attempted today's flight.

Lieutenant Park had a notable record for service in the Philippines. He came from Massachusetts and was a member of a well known military family. A brother, who is one of the engineers of the army, is now in charge of the government fortifications at Corregidor, which guards the entrance to Manila bay.

Lieutenant Park apparently was instantly killed. The radiator of his motor crushed his head. The motor itself was resting upon his body when witnesses of the tragedy reached the scene. The aeroplane, one of the type used by the army signal corps, was smashed almost into kindling wood.

### Made Remarkable Flights.

San Diego, Cal., May 9.—Lieutenant Park left the aviation camp on North Island this morning at 5:05 o'clock in a special stock machine on a cross-country flight to Los Angeles, where he planned to land and return, expecting to arrive here this evening. He had made excellent speed up to the time of his fall, considering that he was flying against a strong wind.

The deceased came to San Diego January 15 from the aviation school at Hammondsport, N. Y., where he had taken preliminary instruction. He qualified for an aviator's license February 15, and has since made some remarkable flights, at one time remaining in the air two hours and fifty-five minutes.

### Makes Ninth Death.

Washington, May 9.—First Lieutenant Joseph D. Park, fourteenth cavalry, was detailed to the army aviation service last September. He was a native of Rhode Island. With his death, army aviation has exacted a toll of nine lives, seven commissioned officers and two instructors.

## HOUSE SUMMONS CHAS. G. GLOVER

Washington, May 9.—With only four members dissenting, the House today voted to summon before its bar to answer a charge of contempt Charles G. Glover, a local millionaire banker, who assaulted Representative Sims of Tennessee recently because of a speech by Sims attacking his connection with a real estate transaction in which the government had an interest. Jail sentence is a possibility.

## INSPECTORS SENTENCED

Sweeney, Murtha, Hussey and Thompson, Convicted Conspirators Fined \$500 and Sentenced to One Year in Prison

New York, May 9.—Dennis Sweeney, John Murtha, James F. Hussey and James F. Thompson, former police inspectors convicted of conspiring to obstruct justice to check graft revelations involving them, were sentenced today to serve one year in the penitentiary and pay a fine of \$500 each. This is the maximum sentence.

Up to the moment that sentence was pronounced, the belief prevailed that one of the four would "sneak" to the district attorney on the "man higher up." If any of them had entertained such intention, he masked it under a stolid iron of calmness as he faced the bar.

No more of any sort looking to appeal was taken by any of the four prisoners today. An effectual check

## TRAGEDY ON MONT. RANCH

**With Four Bullet Wounds in Body Woman Crawls Mile For Aid—Husband Killed and Boy Wounded By Murderer Who Committed Suicide**

Missoula, Mont., May 9.—With four bullet wounds received from the slayer of her husband, who also shot a young boy before committing suicide, Mrs. H. A. Wellington dragged herself three-quarters of a mile to the nearest ranch to tell of the tragedy. The woman collapsed after her arrival, and is not expected to recover. The boy is seriously wounded.

The shooting occurred on the Wellington ranch, three miles from Dixon, and the news was brought into town by the injured woman who went for assistance.

Mrs. Wellington has a bullet in her chest and one in her neck, and both hands were shot through.

The murderer was named A. Stankys, and was a stranger in Dixon. He arrived there late yesterday afternoon, saying that he had come from Wisconsin.

Jealousy May Have Been Cause. The theory of the sheriff is that Stankys was acquainted with Mrs. Wellington when she lived in Wisconsin, and that jealousy prompted him to the crime.

Mrs. Wellington before her collapse declared that the man appeared suddenly at the farm house and when Wellington went out to meet him, he began firing. Wellington dropped in his tracks. When Mrs. Wellington attempted to come to the aid of her husband, the man forced her back into the house and as she struggled with him, he fired four shots at her. Stankys then saw the boy and fired a shot at him. Although wounded, both the boy and Mrs. Wellington fled from the house. A moment later Stankys fired a bullet into his own brain.

## AEROPLANES FOR REBELS

**U. S. Agents Are Looking For French Aviator and English Assistant For Trying to Take Machine Into Mexico; Rebel Agents Are Active**

Los Angeles, Cal., May 9.—Federal agents here awaited today the arrival of Didier Masson, the French aviator and his mechanic, Thomas Dean, who were detained temporarily Wednesday night because their machine had been seized by United States marshals on the ground that it was destined for use of Mexican Constitutionalists in their war against Huerta.

Masson, in a message yesterday to Van Griffith, secretary of the Aero club of Southern California, said that he found that no warrant for his arrest was in the hands of the authorities at Tucson, and Griffith said today that Masson and Dean left Tucson believing that there were no charges against them. Several warrants were issued at Phoenix after the departure of the airmen from Tucson, but Griffith doubted that any of them called for the arrest of the Frenchman and his British assistant, Dean.

Rebels Have One Machine. Among the Mexicans sought in connection with the alleged attempt to smuggle a war aeroplane to the Mexican rebels of Sonora are Manuel Banche Alcaide, a former editor of Madero's newspaper organ in the city of Mexico, and his brother, Captain Joaquin Alcaide. Another Mexican involved is General Santiago Camarero, a Maderista, who fled Mexico with the Alcaides directly after the fall of Madero.

Federal agents here and in Tucson believe, however, that these three men already have gone into Mexico with another aeroplane, which was reported Wednesday as having arrived at Oriz, Sonora. This machine, the pioneer of the Mexican rebel aerial navy, made a successful flight over the fortifications of the Huerta forces around Guaymas yesterday according to cues received by Manuel Pina y Cuevas, Mexican consul here.

The C. G. T., the Trade Union National Center of France, has published a manifesto against the attempt to reintroduce three years' military service.

## TRAGEDY ON MONT. RANCH

**With Four Bullet Wounds in Body Woman Crawls Mile For Aid—Husband Killed and Boy Wounded By Murderer Who Committed Suicide**

Missoula, Mont., May 9.—With four bullet wounds received from the slayer of her husband, who also shot a young boy before committing suicide, Mrs. H. A. Wellington dragged herself three-quarters of a mile to the nearest ranch to tell of the tragedy. The woman collapsed after her arrival, and is not expected to recover. The boy is seriously wounded.

The shooting occurred on the Wellington ranch, three miles from Dixon, and the news was brought into town by the injured woman who went for assistance.

Mrs. Wellington has a bullet in her chest and one in her neck, and both hands were shot through.

The murderer was named A. Stankys, and was a stranger in Dixon. He arrived there late yesterday afternoon, saying that he had come from Wisconsin.

Jealousy May Have Been Cause. The theory of the sheriff is that Stankys was acquainted with Mrs. Wellington when she lived in Wisconsin, and that jealousy prompted him to the crime.

Mrs. Wellington before her collapse declared that the man appeared suddenly at the farm house and when Wellington went out to meet him, he began firing. Wellington dropped in his tracks. When Mrs. Wellington attempted to come to the aid of her husband, the man forced her back into the house and as she struggled with him, he fired four shots at her. Stankys then saw the boy and fired a shot at him. Although wounded, both the boy and Mrs. Wellington fled from the house. A moment later Stankys fired a bullet into his own brain.

## PROGRESSIVE CONFERENCE

**Cummins Leaves For Chicago To Arrange For the Reorganization of the Republican Party—Hilles Plans to Call Meeting May 24**

Washington, May 9.—Many progressive congressmen, headed by Senator Cummins, left today for Chicago for a conference on the reorganization of the Republican party. They will confer tomorrow and Monday, although some of those numbered in the Progressive ranks will not attend. Senator Bristow said his senatorial duties would prevent him from going and Senator Norris said he did not believe he had taken any interest in the conference.

Chairman Hilles, of the Republican national committee already has called a reorganization conference here for May 24.

## LIEUTENANT KILLS SELF

**Officer of United States Navy Is Found Dead With Revolver Lying Beside Him on the Floor—Authorities Investigating**

Annapolis, Md., May 9.—Lieutenant B. Richard Hill, U. S. N., was found dead in his room at a boarding house here today, with a bullet wound in his head. A revolver was lying beside him on the floor. Lieutenant Hill, who was from Iowa, was taking a post graduate course at the naval school of engineering. While it appears to be a case of suicide, no motive for the deed has yet been discovered. The naval academy authorities are investigating.

## FREIDMANN CURE PUBLIC

**Government Experts Say That the Tuberculosis Vaccine Does Not Justify Confidence Which Has Been Inspired By Widespread Publicity**

Washington, May 9.—The public health service observations, so far into the condition of patients inoculated by Dr. F. F. Friedmann with his tuberculosis vaccine, do not "justify that confidence in the remedy, which has been inspired by widespread publicity" in the opinion of the surgeons who have conducted the government's investigation.

This first authentic and official conclusion from the tests made by the National Association for the Study and Prevention of Tuberculosis, by Dr. John F. Anderson, director of the government's hygiene laboratory, and Dr. A. M. Stimson, another public health surgeon, who were detailed to observe the progress of the Friedmann patients at Mount Sinai hospital.

"We believe that at the present time," says their report, "we are not in a position to express an opinion based on the present conditions under observation. The disease for which the remedy is used is prolonged and is characterized by periods of advancement and retrogression. It is also one in which psychic influence is a powerful factor. Time is therefore necessary properly to evaluate the effect of therapeutic measures."

"We must not lose sight of the possible therapeutic value of this preparation and on the other hand it is necessary to guard against too great an optimism in respect to its merits. Without presenting in detail the condition of patients under observation, we are in a position to state that the facts thus far observed do not justify that confidence in the remedy, which has been inspired by widespread publicity."

"In our opinion harm may have been done by this undue publicity insofar as it has lessened the confidence of tuberculosis patients in well recognized methods of treatment or interrupted their use, and we are constrained to advise against any lessening of those well-known measures which not only have effected cures but which have reduced the incidence of the disease."

Made Use Intra-Muscular Method. "In our series of patients, Dr. Friedmann has almost exclusively made use of the intra-muscular method alone in pulmonary cases and a very considerable proportion of them have either developed no considerable infiltrate at all or have suffered from abscess formations. It is evident, therefore, that a very considerable portion of these patients may expect their treatment at the hand of Dr. Friedmann to extend over a long period."

"Concerning the cultures submitted to us, we may state that a series of experiments is under way. The bacillus has been found to be an acid-fast organism having properties quite different from those of any tubercle bacillus with which we are acquainted. It appears to be identical with an organism cultivated from a few lung fulls of the material used for injection which Dr. Friedmann permitted us to place on culture media in his presence. We requested Dr. Friedmann to furnish us with a large amount of this material for examination, but this he has declined to do."

On the whole, Dr. Friedmann's reluctance to furnish certain details "were not satisfactory from a scientific standpoint," but the report says "in view of the great importance of the matter to tuberculosis patients throughout the country and in the hope that a valuable remedy may at last have been found not only to cure tuberculosis patients, but to prevent the disease, the conditions imposed by Dr. Friedmann were accepted. An additional reason for taking advantage of opportunities to make every study possible was the assurance of Dr. Friedmann of its harmlessness when injected into human beings. Immediately after the presentation of the public health service report, a resolution was unanimously adopted declaring it to be the judgment of the association "that no specific cure for tuberculosis had yet been discovered to warrant the confidence of the public or the medical profession."

### To Fight Tuberculosis.

Sacramento, Cal., May 9.—Three bills appropriating \$27,000 for a campaign against tuberculosis were passed by the assembly today. One sets aside \$20,000 for the maintenance of a state department of tuberculosis; another provides \$2,000 for treatment of residents afflicted with tuberculosis, and the third provides \$5,000

## TECHNICALITY IN NEGRO PUG'S CASE

Chicago, May 9.—Counsel for Jack Johnson, the negro prize fighter, halted the hearing of testimony in the white slave case today by a technical objection and the jury was excused until afternoon while Federal Judge Carpenter listened to arguments on the objection.

Belle Schreiber had resumed the stand and brought her testimony up to October 15, 1910, the date named in the indictment against Johnson, when Johnson's counsel objected to the introduction of any evidence bearing on the counts in the indictment.

Johnson is charged with bringing the Schreiber woman from Pittsburgh to Chicago for "immoral purposes." The attorney contended that the Mann white slave act is directed against the transportation of women from one state to another for commerce in her immorality, and not against immorality itself. He contended that the phase of the law covering immorality is unconstitutional and alleged the indictment was faulty in failing to show that the acts complained of were committed within the jurisdiction of the court.

## JAPAN SENDS HER PROTEST

**Viscount Chinda Visits Secretary of State Bryan For Two Conferences—President Receives Note—Will Be Considered By Cabinet Tomorrow**

Washington, May 9.—Japan's formal protest against the California alien land bill was submitted to Secretary Bryan at the state department early today by Viscount Chinda in person. The protest will be placed before President Wilson and the cabinet by Secretary Bryan this forenoon, that an answer may be promptly returned to the Japanese embassy.

Secretary Bryan was a little late in arriving at his office but five minutes after the appointed hour he was in conference with Viscount Chinda, who came to the state department alone. The conference lasted for half an hour and at its conclusion, the secretary and the ambassador left the department together, the former going directly to the White House to submit to the president the written communication which the ambassador had given to him and the ambassador returned to the embassy.

The secretary declined to make any statement as to the character of the protest, but he had received until after the cabinet meeting.

No Statement at Present. "I have no statement to make at this time," was his only reply to all inquiries. The cabinet remained in session and there were some intimations that a statement might come from the White House later.

Shortly afterward Secretary Bryan and the ambassador again met at the state department but their conference was necessarily short as the secretary had to take the 12:30 o'clock train for New York where he is to deliver an address tonight at a banquet.

Mr. Bryan said that conference with the ambassador would be resumed tomorrow upon his return from New York.

Other members of the cabinet refused without exception to discuss the situation further than to say the general subject had been gone over. There is a strong probability of a special cabinet meeting tomorrow to permit Mr. Bryan to lay before the president and his colleagues the results of his further conference with the Japanese ambassador.

At the White House and the state department there was every evidence of the intention of the president and the cabinet to go into the question without delay and give to the Japanese government a prompt outline of the federal government's attitude toward the Webb bill should Governor Johnson sign it.

## MARSHALL REPLIES TO COL. HARVEY

Washington, May 9.—Vice President Marshall today replied to Colonel George Harvey's statement that his recent public speech was meant to incite the "predatory poor."

"If anybody will produce a public utterance of mine advocating the curtailment or distribution of honest wealth except by a fair inheritance tax, I will go to Wall street and possibly apologize," said Mr. Marshall.

## EVACUATION OF SCUTARI

**Last of Montenegrin Troops Will March Out of City Sunday—Town Will Be Occupied by Detachment From International Fleet**

Cettinje, Montenegro, May 9.—A Montenegrin cabinet under the premiership of General Vukotich was formed today to take the place of the government which resigned when King Nicholas decided to evacuate Scutari at the behest of the European powers.

The foreign office immediately afterward opened negotiations with the commanding officers of the international fleet which has been blockading the coasts of Montenegro, and arrangements were made for the evacuation of Scutari. By Sunday the last of the Montenegrin soldiers are to march out of the city, which will be occupied by detachments from the international fleet.

King Nicholas said today in a speech to the Montenegrin parliament that, in the interest of general peace and in order to save Montenegro and the entire Serb nation, he was forced to give in to the European powers, Russia, Servia and Greece, he declared, would continue to protect the little kingdom.

New Ministers. The portfolio of the new ministry are distributed as follows: President, General Vukotich. Foreign minister, J. S. Plamenaz. Minister of Interior, L. Golitch. Minister of education, Lazar Mityukovitch. Minister of Justice, Ljubi Bakitch. Minister of finance, Riste Popovitch.

Big Fire at Scutari. Vienna, May 9.—Fire broke out in the bazaar of the former Turkish fortress of Scutari this morning and fanned by a high wind rapidly assumed huge proportions. It is reported here that the Montenegrins started the blaze when leaving the city in revenge for being compelled to evacuate it.

Losers Very Heavy. Cataro, Austria-Hungary, May 9.—The fire at Scutari was extinguished after a wide area containing many shops had been burned. The losses are very heavy. Several quantities of jewelry, rich carpets and silks were destroyed.

## WILL CHANGE HER TESTIMONY FOR HIM

Denver, Colo., May 9.—By bringing a charge of intimidation against the district attorney, Harold Frank Henwood has gained a continuance of his trial on the charge of murdering George E. Copeland in the Brown Palace hotel. Henwood declares that the prosecutor by threatening to read letters from Isabel Patterson Springer to Tony Von Phul, and by laying the letters on the table before her, intimidated her into testifying against Henwood at his first trial, although she was his witness.

The shooting was caused by the rivalry of Henwood and Von Phul for the friendship of Mrs. Springer, wife of a Denver banker. Von Phul was killed, as was Copeland, a bystander. Mrs. Springer was expected to give evidence which would acquit Henwood, but the defense was disappointed in her testimony and Henwood was convicted. He has been granted a new trial.

Henwood's attorney, John T. Lott, has filed in court an affidavit, by Henwood declaring that not only was Mrs. Springer prevented by the threats of the district attorney from telling the truth, but that she was under the influence of opiates given by her physician.

The affidavit promises a deposition from Mrs. Springer, now in New York, which will differ materially from the testimony she gave under the eye of the prosecutor.

Judge Butler continued the trial until May 28, to give time for Mrs. Springer's deposition to reach here.

John A. Rush, the present district attorney, who was not in office when Henwood was tried before, declares that if Mrs. Springer's deposition varies materially from the testimony she then gave he will have her arrested and brought here to be tried on a charge of perjury.

Mrs. Springer was divorced as a result of exposure at the first Henwood trial.

## LEAPS INTO SEA; RESCUED

**Wife of Alaskan Merchant of British Columbia Jumps Overboard—Found Alive But Unconscious on Beach by Fisherman**

Seattle, Wash., May 9.—Mrs. E. R. Ask, wife of a prominent merchant of Skagway, Alaska, jumped overboard Tuesday night while the steamship Spokane was off Prince Rupert, B. C., and was found unconscious but alive on the beach by fishermen next morning, according to a report received by the Spokane, which arrived from the north today. Mrs. Ask occupied a stateroom with her husband and two-year-old child. Tuesday night when Mr. Ask retired, his wife, who is an invalid, was asleep, fully dressed, in her berth. When he awoke in the morning, Mrs. Ask was missing from the boat.

Wireless messages were sent to all steamers and shore stations in the vicinity and early today the Spokane's operator received a message from Prince Rupert, saying Mrs. Ask had been picked up alive by fishermen and that she was in a hospital there.

Mr. Ask will leave for Prince Rupert tomorrow to join his wife.

## GUARD FOR CABINET DUO

**Premier Asquith and Secretary Churchill Leave For Mediterranean Inspection Cruise—Detectives Prevent Any Militant Attacks—Flora Drummond Very Ill**

London, May 9.—The apprehension of the authorities over the threats of the militant suffragettes to eclipse their destructive acts of the last week was manifested by the precautions which were taken this morning when Premier Asquith and First Lord of the Admiralty Winston Spencer Churchill, accompanied by their wives left Waterloo station on the South-western railway to join the admiralty yacht Enchantress, on which they are to make an inspection cruise of the British Mediterranean stations.

A large number of naval aides, government departmental secretaries and railway officials surrounded the party formed by the cabinet ministers, and those who had come to bid them good bye. Beyond these there was an outer circle of detectives to protect the ministers from any undue attention by militant suffragettes or their male supporters.

Flora Drummond Very Ill. London, May 9.—"General" Mrs. Flora Drummond, the militant suffragette leader who collapsed twice in Bow Street police court yesterday's proceedings against the principal officers of the Women's Social and Political union for conspiracy, is very ill today from the effect of her privations during her "hunger strike" while under arrest. Her physician has advised her to undergo an operation.

"Arson Squad" Busy. London, May 9.—A militant suffragette "arson squad" was out this morning and succeeded in destroying by fire a large untenanted mansion near Barrow-in-Furness, Lancashire. A quantity of literature was scattered in the lawn surrounding the house.

Members of the Wireless Operators' union of San Francisco are demanding from \$50 to \$60 per month.

## TODAY'S GAMES

Quakers Defeat Cardinals. Philadelphia, May 9.—(National)—R. H. E. St. Louis ..... 1 2 1 Philadelphia ..... 3 7 0 Batteries—Steele, Geyer and McLean, Wingo; Alexander and Doolin.

Cubs Lose to Dodgers. Brooklyn, May 9.—(National)—R. H. E. Chicago ..... 5 9 1 Brooklyn ..... 7 6 1 Batteries—Pierce, Reulbach, Humphries and Archer; Stack, Curtis and Miller.

Braves Beat Pirates. Boston, May 9.—(National)—R. H. E. Pittsburgh ..... 4 9 1 Boston ..... 5 11 6 Batteries—Cammitz, Robinson and Simon, Kelly, James and Whaling.

Reds Defeat Giants. New York, May 9.—(National)—R. H. E. Cincinnati ..... 3 16 1 New York ..... 1 6 0 Batteries—Fromme and Clarke; Marquard, Crandall and Meyers, Wilson.
